HOT NEW TITLES FOR YOUR ATARI XL/XE DIRECT FROM EUROPE!!!

$19.95 each

FRED - ATD904
Fred is a real stone age rockstar! Being a little bolder than the rest of his tribe and bored with banging skulls together, Fred embarks on the ultimate quest to find the true meaning of caveman life. Armed with only a single figure I.Q. and a large supply of hefty rocks, this is a mission fraught wtih danger and excitement!

ZYBEX - ATD908
Battle on your own or with a friend through the planets of the Czokan system to your final destination, Zybex. The great variety of weird and wonderful weapons ensure there are hundreds of variations on blasting your space opponents to oblivion!!

SCARY SCHOOL - ATD906
Your task is to have Blinky, the star pupil from the School for young Ghosts, penetrate the cunning traps in Crumtrochie Castle and avoid the cunning Ghostgbuster Red Laird McTavish. This game has fantastic graphics and sound. Hard to believe its an a-bit game!

MIRAX FORCE - ATD903
The ultimate shoot 'em up. Many levels of play with brilliant graphics, 4 channel digitized sound, up to 7 sprites and missiles on screen at one time! Fly your attack flghter over the alien mothership, avoiding defense and enemy craft, towards your target.. the Pulsating Power Reactor!

NINJA COMMANDO - ATD905
A Martial Arts game with brilliant graphics and 8 horizontal scrolling levels. You are Ninja, the Master of Marital Arts with all his special powers. Can you survive the Deathstars, Grenades, and machine gun fire? Only you control this Scrobatic Ninja!

DRACONUS- ATD919
Draconus is set on an alien planet ruled by the Tryant Beast who must be obliterated . On your journey you'll meet various nasties such as giant rats, bats, and sea serpents, together with a sprinkling of Terror toads and ferocious Catepelose. Harder to describe are the Bonce Blobs, Balls of Gooey matter which drips from the cave ceiling only to bound around in mid air causing you even more problems!

CAVERINA - ATD920
In Caverina, you are a miner going on a magical journey through complex underground tunnels and caves searching for precious artifacts and gems. In each level, you will come up against a series of intricate puzzles, treacherous mutants, static electric fields, dangerous rock movements and lots, lots more!!

DONALD - ATD917
Help Donald the Duck to travel through five mysterious levels each consisting of ten screens in search for the golden eggs. Great graphics and music, cartoon-like animation.

TECNO NINJA - ATD914

OBLITROID - ATD918
Our superhero Oblitroid is to fight the evil Tindalos in his underground fortress! Travel through four worlds, explore 170 screens in all Lots of hidden items and monsters.

ZEBU-LAND - ATD912
Help Zebu and his friends to escape from the 50 level maze with revolving doors and moveable blocks. Great graphics and musical tune, codes to start at each level ... best seller!

ASHIDO - ATD915
Enjoy chinese stone meditation with Ashido! Try to place all stones on the board getting most points. Colorful graphics and three different stone sets.

BOMBER JACK - ATD911
Another brainkiller from Ke-Soft. Help Jack to collect all gold pieces by bombing around. Lots of strategic elements combined with funny music and fast arcade action.

PLAYERS DREAM - ATD913
This features two great games for the price of one! In PLOT, you'll have to eliminate blocks by throwing similar blocks on them. Sounds easy? Don't be so sure! This one will keep you entertained for hours trying to top your last score. SKIABFARTH is a fast paced downhill skiing game with many obstacles, like trees and houses to block your way to keep you from qualifying within the time limits for that level.

STACK UP - ATD907
Stack Up is the ultimate arcade game mixing fast reactions, skill and brain punishment in suberbly addictive quantities. Stack Up is like Tetris in play, but only better!!

GLAGGS ITI - ATD921
Be prepared to have your skills stretched to the limit in this fast paces game. Blocks with up to 8 different colors drop down in columns. it's your task to catch them and build columns of blocks in the same color. Many skill levels to test you!

TAIPEI - ATD922
The game of ivory tiles, played by seafarers, scoundrels and emperors of the far east for centuries awaits. Ancient tiles are stacked randomly . 144 tiles beckon your skill and strategy in matching pairs, eliminating them from the board.

GIGABLAST - ATD923
Together with other astronauts, you are sent to the hostile planet of Arxonis to free the innocent people living on it. Five ships armed with 3 spherical bombs are under your control. You are the only hope of millions of people and the future of the universe!

MicroFiler

MicroFiler is designed to allow you to easily and conveniently enter, organize, store and retrieve nearly any kind of information. Any information you might keep in a 3x5 card file can be stored using MicroFiler. But more than just storing data, MicroFiler allows you to browse through the information, search for specific entries quickly and easily, add or find averages of numeric information, and, if you have a printer, print the information in any format desired from simple lists to mailing labels. Great for household inventories, cataloging collections, recipes, etc.

ATD259 **$22.50**

VISICALC

The program that takes the work out of working with numbers! VisiCalc is a powerful electronic spreadsheet. In seconds the VisiCalc program can calculate and display the answers to involved problems you could have spent hours doing by hand.

You can ask "What if . . . ?" Just change any number in your problem and instantly the program recalculates all the numbers and displays the new results.

Whether you're working with investments, cash flow, inventory, estimates, budgets, forcasts, plans - nearly anything numerical, VisiCalc can help you work better & faster.

ATD277 **$29.95**

ATARIWRITER

ATARIWRITER (All versions): No more retyping entire pages for the sake of a few revisions. With Atariwriter and your Atari 8-bit computer you can make corrections and design page layouts right on the screen. And a special print preview option lets you see exactly how everything will look on paper. You can automatically edit and reorganize anything you've written until it's just right. Moving or removing sentences or paragraphs is simply a matter of pressing a few keys. If you're writing one memo or letter that's destined for several different people, you can easily change the names in the document - without redoing all of it. In every instance, your printer - not you - types perfect final drafts. The built-in Disk Operating System allows you to format a disk, save, load, and delete files without the need for a separate DOS.

ATARIWRITER PLUS & ATARIWRITER 80: These versions feature Atari's built-in Proofreader - A spelling checker that virtually eliminates typos and misspellings from your writing. Atari MailMerge - the file manager program program that compiles and manages an electronic address book. Use it to merge your list with your word-processed documents. It's perfect for adding individual names and address to your form letters. Built-in DOS 2.5 operating system. Custom Printer Driver Creator lets you work with non-Atari printers.

ATARIWRITER 80: requires an XEP80 interface to provide an on-screen 80 column format.

SMALL BUSINESS SYSTEM

from Black Moon Systems

Small Business System is a group of programs that allow the Small Business Owner to run his businness on an Atari computer. All the program modules are chosen from a Main Menu. Invoicing, Purchasing, Income and Expense Entry, and End of Year Inventory Module and Reports Module are available. You run the company Set-Up Program first and set up your defaults for data drive and forms. You can set up different data disks for different businesses. You can use SBS to manage building rental income and expenses. You can use SBS to keep your personal income and expense records. Reports can be generated by month, any consecutive group of months or by the year. You can get reports on all expenses or totals for just one category. There is also a Sales and Tax Report and a Profit/Loss Report in the Reports Module. LabelMaster and the Multi-Column Lister are included in the SBS package.

LabelMaster allows you to create and edit data onscreen. You design your label in a 6 line by 34 charcter area. You can save and load lavels from disk. The Gropup Print function allows you to print out the labels you want. You can build your own mail lists. Advanced features too numerous to mention make this machine language program a breeze to use. This is a powerful tool for the serious Atari user.

Multi-Column Lister is a machine language program that allows you to print out your LabelMaster data files on labels or paper from one to 6 (depends on printer capabilities) labels across. This utility will work with any printer. SpartaDOS users can print out by Subdirectory or print out Subdirectories from A-Z (nice for maintaining an alphabetic database).

It's the ideal printer for word processing applications that require legibility and style. Sophisticated features such as bold face printing, underlining, subscripts, superscripts and international character set will greatly enhance your written work. The bidirectional, logic seeking printing methods eliminates wasteful mechanical movement, thereby allowing greater printing speed. The printer offers an array of tabbing controls and page-length options and can store these format commands in its memory. Its control panel includes three built-in functions, yet it remains uncomplicated and is a snap to use. Includes Courier 10 pitch font.

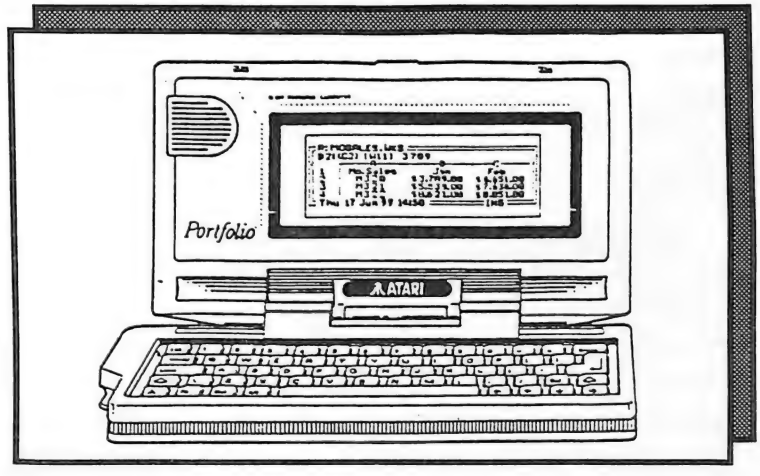
ATARI PORTFOLIO



Atari Portfolio is the world's first palmtop MS-Dos compatible computer. About the size of a VCR tape, it weighs less than one pound. The Portfolio opens up like a book. Immediately after switching it on, integrated software programs are accessible, such as the Lotus 1-2-3 file compatible spread sheet.

The Portfolio works with the aid of the energy-saving 80C88 at a clock frequency of 4.92 MHz. The 63-key keyboard layout corresponds to that of a normal personal computer. The Liquid-crystal display screen uses supertwist technology to offer 8 lines of 40 characters which can be windowed into a full-sized virtual PC screen.

BUILT IN FEATURES

- MS-DOS Command Compatible
- 5 built-in applications: Spreadsheet, Text Editor, Calculator, Address Book with Phone Dialer, and Diary.
- 128K RAM - 256K ROM
- 40 column by 8 line Screen Display
- Exchange text files with other computers.
- Up to 6 weeks on three AA batteries

OPTIONAL FEATURES

- Parallel interface module uploads and downloads files between desktop PC and Portfolio, controls parallel printers, etc.
- Serial interface module for modems and controls serial printers
- PC Card Drive for reading and writing to memory cards
- Credit-sizes Memory Cards in 32K, 64K, and 128K for data storage
- 20 Meg Hard Drive for data storage

Requires AtariLab Starter Set.

GET **BOTH** FOR ONLY **$14.95** PKG001

ATARI LOGO

A popular educational language for students and teachers, for use at home or school. Logo is simple enough for preschoolers and sophisticated enough to challenge college students. A small triangular cursor called a "turtle" is used to draw graphics easily. Logo includes sound and music commands which use the Atari's music synthesis capability.

Features include four different types of screens; cataloging commands; and a TRACE command for programming and debugging. Logo gives you the ability to do LIST processing and read music, graphics, and text files previously created with Logo.
